### **DETAILED ACTION**

Applicants Arguments/Remarks dated 10-1-08 have been considered.

#### ***Claim Status***

Claims 1-5 are cancelled. Claims 6-9 are pending.

#### ***New Matter Rejection***

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 6-9 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

The term "consisting essentially" was never specifically disclosed in the specification as originally filed, which furthermore does not contemplate the exclusion of any particular ingredients as implied therein.

***Claim Rejections - 35 USC § 103***

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 6-9 were rejected under 35 U.S.C. 103(a) as being unpatentable over Seitz et al (US 2005/0014650 A1). This PG PUB claims the priority of PCT/EP02/09866 which was published on March 27<sup>th</sup> 2003 in german (attached) and the english translation of the PCT is used as prior art.

This rejection is maintained.

Applicants have amended claims 6 and 8 to incorporate the phrase "consisting essentially of". But there is no support for this in their specification, as discussed above. Absent a clear indication in the specification or claims of what the basic and novel characteristics of the claimed composition actually are, the term "consisting essentially of " is construed as being equivalent in meaning to the term "comprising". PPG v. Guardian, 156 F.3d 1351, 1354 (Fed.Cir.1998).

Accordingly, the previous rejection is maintained.

**Conclusion**

Claims 6-9 are rejected and are not allowed.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

§ 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
